# What is BSides?

Security BSides is a community-driven framework for building events for and by information security community members.

The goal is to expand the spectrum of conversation beyond the traditional confines of space and time.

It creates opportunities for individuals to both present and participate in an intimate atmosphere that encourages collaboration. It is an intense event with discussions, demos, and interaction from participants.

Community  
organized, volunteer  
driven, and sponsor  
funded.

# BSides Facts

## EDUCATION

## COMMUNICATION

## COLLABORATION

- ✓ Attracting international security talents
- ✓ Target audience from CISOs to students and professors, hackers and cyber security vendors, willing to talk and share knowledge
- ✓ Center of discussion for the hottest information security topics
- ✓ Creating recruitment opportunities for both recruiters and people seeking for new opportunities in the information security sector
- ✓ Promoting applied information security research deriving from presentations and technical workshops
- ✓ Competitions challenging the participants to solve security problems in Capture The Flag (CTF) and Lockpicking Villages (LV) events

**“BSides means community, conversation, content, and career.”**

**“It’s the most interactive community building event in information security.”**

After almost 4 years, BSides Cyprus 2023 will be again an in-person event. We promise to make that day special for all participants once again.

2023

COVID-19 uncertainty led to BSidesCyprus 2021 Home edition, an online event. 1 track with technical talks, 2 CTF contests, approx. 70 online participants.

2021

First Security BSides in Cyprus. 3 tracks, 16 technical talks and workshops, 1 CTF contest, 150 participants from Cyprus and abroad.

2019

BSides breaks into the global space with the first European event

2014

More than 160 BSides events, in 74 cities, 16 countries, on 6 continents

2010

First BSides event launched in Las Vegas with approx. 200 participants

2009

- Rootbeer is an open-source python enumeration tool
- Misconfiguration vulnerabilities
- Category Modes
- Pin-to-point Exploitation
- Python3 & Python2.

- Verbal recognition during event

# Alternative Sponsorship (DIONYSUS)

We use sponsorships to create a wonderful day for BSides participants. The expenses of our event consist of the venue, coffee breaks, lunch, after-party and many others. We want to reward our sponsors for their contribution and at the same time be transparent about how this is being used.

Therefore, should you wish to support BSides Cyprus event, your organization has the choice of paying directly for some of event's demands. For example, the sponsor can cover all the costs for the after-party and consequently be "*the after-party sponsor*".

To learn more about such sponsorships, please contact us directly at [sponsors@bsidescyprus.com](mailto:sponsors@bsidescyprus.com)

## LUNCH BREAK SPONSOR

Enjoys the **Platinum Sponsor Privileges** plus:

- Personalized banner on lunch space
- Shout-outs and posts on social media during the event and the lunch as "the lunch sponsor"

## AFTER-PARTY SPONSOR

Enjoys the **Gold Sponsor Privileges** plus:

- Personalized banner on after-party space
- Shout-outs and social media posts before and after after-party as "the after-party sponsor"

## COFFEE BREAK SPONSOR

Enjoys the **Silver Sponsor Privileges** plus:

- Shout-outs at each event coffee break

## COMMUNITY SUPPORTERS

Except from the financial support of our sponsors, we are really interested in engaging with other organizations, communities, groups, involved in information security.

If you would like to make a contribution of goods or services to make event's day more awesome and unique, we will be more than happy hearing from you and get you involved. We will add your logo under the community sponsors on our website and event's banners.
